**310 Payne Place, Dublin, GA 31021**

**\$220,000**

Location is the key word for this 3 Bedroom, 2 bath home! This traditional brick home is located in a well established and desirable neighborhood. The home is also located near most shopping and the Dublin City Schools are near as well. You will also find this home to be great for anyone in need of handicap access, with a remodeled handicap bath and single level floors throughout the home. The large masonry fireplace will be a favorite spot during the winter months. Outside you will also find a storage shed, privacy fence, fenced pet area and large shade trees. The front view of the home is great as well, looking over the street into the well manicured pond across the street. This home is part of a family estate sale so no improvement have been planned at this time. There is new carpet in the home, but with new paint and some updating by the new owners it will make a great home.

### Why you need dental insurance in retirement.

Many Americans are fortunate to have dental coverage for their entire working life, through employer-provided benefits. When those benefits end with retirement, paying dental bills out-of-pocket can come as a shock, leading people to put off or even go without care.

Simply put – without dental insurance, there may be an important gap in your healthcare coverage.

#### When you're comparing plans...

- ▶ Look for coverage that helps pay for major services. Some plans may limit the number of procedures – or pay for preventive care only.
- ▶ Look for coverage with no deductibles. Some plans may require you to pay hundreds out of pocket before benefits are paid.
- ▶ Shop for coverage with no annual maximum on cash benefits. Some plans have annual maximums of \$1,000.

#### Medicare doesn't pay for dental care.<sup>1</sup>

That's right. As good as Medicare is, it was never meant to cover everything. That means if you want protection, you need to purchase individual insurance. Early detection can prevent small problems from becoming expensive ones. The best way to prevent large dental bills is preventive care. The American Dental Association recommends checkups twice a year.

#### Previous dental work can wear out.

Even if you've had quality dental work in the past, you shouldn't take your dental health for granted. In fact, your odds of having a dental problem only go up as you age.<sup>2</sup> Treatment is expensive – especially the services people over 60 often need. Consider these national average costs of treatment ... \$217 for a checkup ... \$189 for a filling ... \$1,219 for a crown.<sup>3</sup> Unexpected bills like this can be a real burden, especially if you're on a fixed income.

## DENTAL Insurance

from Physicians Mutual Insurance Company

Helps keep more money in your pocket!

- ✔ Go to any dentist you want
- ✔ Helps pay for over 350 procedures
- ✔ No deductible, no annual maximum on cash benefits

"I don't worry"

"Now that I have your dental policy, I don't worry about going to the dentist. I love your plan – you pay what you say!"
